## **The Regulatory Status of Pinnacle Polymers Products**

Pinnacle's 1000 series homopolymer polypropylene products as marketed by Pinnacle Polymers Company, in natural, uncolored pellet form conform to the following:

### **FDA regulations**

Pinnacle's 1000 series comply with all of the appropriate requirements of CFR Title 21, Part 177, Subpart B, Section 177.1520 (c) 1.1a, entitles "Olefin Polymers" of the Food Additives Amendment of 1958 to the United States Food, Drug and Cosmetic Act of 1938. Consult current individual product datasheets for any limitations of food type or conditions of use.

It is, however, the responsibility of the customer to determine that the products fabricated from these materials are acceptable to the FDA for use in their intended applications.

### **Country of Origin**

United States of America

### **Food Allergens**

Products are not formulated to contain, or known to contain, any of the following materials: celery, eggs, fish, milk, mustard, peanuts, sesame seeds, crustacean shellfish, soybeans, sulfites, sulfur dioxide, tree nuts, or wheat. Not known to contain foods listed in EU No 1169/2011.

### **CONEG – Coalition of Northeastern Governors (Heavy Metals)**

In these products the sum of concentration of lead, mercury, cadmium and hexavalent chromium is less than 100 ppm by weight.

### **ASTM F963 Standard Consumer Safety for Toy Safety**

These products are not formulated, or known to contain antimony, arsenic, chromium, selenium, or barium.

### **California Proposition 65**

These products conform to Prop 65, including the Notice of Amendment of May 17<sup>th</sup>, 2018.

### **Animal Derivatives**

Most products are not formulated, or known to contain animal or tallow based materials. However, to obtain information for a specific product grade, please contact Pinnacle.

### **Kosher**

Products are not certified Kosher.

### **US FDA Drug Master File (DMF)**

Information concerning these products is listed in DMF 17038. Contact Pinnacle for a DMF letter of authorization to be sent to the FDA.

Pinnacle Polymers makes no warranty of merchantability and there is no warranty that materials shall be fit for any particular application. Users should make their own independent evaluation whether a Pinnacle product is suitable for a specific end-use. No one is authorized to assume any warranties on behalf of Pinnacle without written agreement from an authorized Pinnacle employee. Pinnacle limits its liability to either replacement of non-performing material, or payment not to exceed the cost of the polypropylene supplied plus transportation charges.

### **Substances of Interest**

Products are not formulated with, or known to contain, these substances; however, our products are not tested for these materials:

- 2,4-di-tert-butylphenol or 4-hydroxybenzene
- Acrylamide
- Aromatic Amines
- Asbestos
- ATP (Adenosine Triphosphate)
- Benzophenone
- Bisphenol A (CAS number: 80-05-7)
- Bisphenol F (CAS number 87139-40-0)
- Bisphenol S (CAS number: 80-09-1)
- Butylated Hydroxyanisole (BHA)
- Butylated Hydroxytoluene (BHT)
- Chlorofluorocarbons (CFC's) ozone depleting substances
- Cyanuric Acid
- Dioxins
- Elemental Boron or Phosphorus
- Epichlorohydrin
- Gluten
- GMO – Genetically Modified Organisms
- Latex, or natural rubber latex
- Latex related polymers
- Melamine
- Nitrosamines
- Nonylphenol
- Organo-tin Compounds
- Ozone Depleting Chemicals (ODCs)
- Perfluorooctanoic Acid (PFOA)
- Perfluorooctane Sulfonate (PFOS)
- Perfluorononanoic acid (PFNA)
- Phthalates in general, which includes:
  - Butyl benzyl phthalate (BBP) - (CAS# 85-68-7)
  - Di-isodecyl phthalate (DIDP) - (CAS# 26761-40-0 & 68515-49-1)
  - Di-isononyl phthalate (DINP) - (CAS# 28553-12-0 & 68515-48-0)
  - Di-n-butyl phthalate (DBP) - (CAS# 84-74-2)
  - Di-n-hexyl phthalate (DNHP) - (CAS# 84-75-3)
  - Di-n-octyl phthalate (DNOP) - (CAS# 117-84-0)
  - Di-(2-ethylhexyl) phthalate (DEHP) - (CAS# 117-81-7)
  - Diisobutyl phthalate (DIBP) - (CAS# 84-69-5)
- Polybrominated Biphenyls (PBBs)
- Polybrominated Diphenyl Ethers (PBDEs)

Pinnacle Polymers makes no warranty of merchantability and there is no warranty that materials shall be fit for any particular application. Users should make their own independent evaluation whether a Pinnacle product is suitable for a specific end-use. No one is authorized to assume any warranties on behalf of Pinnacle without written agreement from an authorized Pinnacle employee. Pinnacle limits its liability to either replacement of non-performing material, or payment not to exceed the cost of the polypropylene supplied plus transportation charges.

- Polybrominated Terphenyls (PBTs)
- Polychlorinated Biphenyls (PCBs)
- Polychlorinated Terphenyls (PCTs)
- Polyvinyl Chloride (PVC)
- Silicone
- Solvents: benzene, carbon tetrachloride, 1,2-dichloroethane, 1,1-dichloroethene, or 1,1,1-trichloroethane
- Vinyl Chloride
- BADGE, NOGE and BFDGE are not used in the manufacture of or the formulation of this product according to requirement of Regulation N.1895/2005

### **Health Canada**

Most products have “no objection” letters issued from HPFB. Contact Pinnacle if you need to obtain this information.

### **RoHS**

Products comply with the requirements of Directives 2002/95/EC, 2011/65/EU, and 2015/863. Pinnacle products are not known to contain cadmium, lead, mercury, hexavalent chromium, polybrominated biphenyls, polybrominated diphenyl ethers, bis(2-ethylhexyl) phthalate (DEHP), benzyl butyl phthalate (BBP), dibutyl phthalate (DBP), or diisobutyl phthalate (DIBP).

### **European Legislation 1935/2004 Framework Directive EC as amended by 89/109/EEC**

Products comply with relevant requirements.

### **2002/72/EC Plastic Materials and Articles intended to come into contact with food stuff amended by Commission Directive and all subsequent amendments including 2008/39/EC**

Products comply with relevant requirements.

### **94/62/EC Packaging and Waste compliant to heavy metals not to exceed 100ppm**

Products comply.

### **2005/1895/EC BADGE**

Products comply with relevant requirements.

### **2008/282/EC Use of recycled plastic material**

No recycled materials are used in our products.

### **10/2011/EC Monomers and Additives**

Products comply with relevant requirements. Contact Pinnacle concerning the identification of any additives having SML requirements for the testing of finished articles.

### **2006/2023/EC Good Manufacturing Practices**

Products comply with relevant requirements.

Pinnacle Polymers makes no warranty of merchantability and there is no warranty that materials shall be fit for any particular application. Users should make their own independent evaluation whether a Pinnacle product is suitable for a specific end-use. No one is authorized to assume any warranties on behalf of Pinnacle without written agreement from an authorized Pinnacle employee. Pinnacle limits its liability to either replacement of non-performing material, or payment not to exceed the cost of the polypropylene supplied plus transportation charges.

**DSL (Domestic Substances List) and Chemical Batches**

The above Pinnacle products are compliant with Canadian DSL and are not known to contain any of the substances listed in the CCMP 12 Batches of Chemicals.

**REACH**

We also confirm that the intentional composition of the above mentioned products do not contain any of the SVHC substances appearing in the REACH candidate list most recently updated by ECHA on June 27, 2018.

**Medical Policy**

**Usage Restrictions:** Pinnacle products shall *not* be used in connection with the following applications:

- The manufacture of any US FDA Class III Medical Device, Health Canada Class IV Medical Device or European Union Class III Medical Device.
- The manufacture of implanted medical or surgical devices.
- Life-sustaining medical applications.

**Conflict Minerals**

“Conflict Minerals” are a source of Tin, Tungsten, Tantalum and Gold (known as 3TGs). Polypropylene products marketed by Pinnacle Polymers contain no known sources of the 3TGs or their derivatives.

Sincerely,

*James Goldthorp*

Technical Director
