The Regulatory Status of Pinnacle Polymers Products

Pinnacle's 2000, 3000, 4000 and 8000 series impact copolymer polypropylene products as marketed by Pinnacle Polymers Company, in natural, uncolored pellet form conform to the following:

FDA regulations

These products are covered under US FDA Food Contact Notification 864. As such, this polymer complies with the requirements of CFR Title 21 and can be used in contact with all food types under Conditions of Use A-H.

Condition of Use:

- A. High temperature heat-sterilized (e.g., over 212 °F)
- B. Boiling water sterilized
- C. Hot filled or pasteurized above 150 °F
- D. Hot filled or pasteurized below 150 °F
- E. Room temperature filled and stored (no thermal treatment in the container).
- F. Refrigerated storage (no thermal treatment in the container).
- G. Frozen storage (no thermal treatment in the container).
- H. Frozen or refrigerated storage: Ready-prepared foods intended to be reheated in container at time of use:
 - 1. Aqueous or oil-in-water emulsion of high- or low-fat.
 - 2. Aqueous, high- or low-free oil or fat

It is, however, the responsibility of the customer to determine that the articles fabricated from these products are acceptable for use in their intended applications.

Country of Origin

United States of America

Food Allergens

Products are not formulated to contain, or known to contain, any of the following materials: celery, eggs, fish, milk, mustard, peanuts, sesame seeds, crustacean shellfish, soybeans, sulfites, sulfur dioxide, tree nuts, or wheat. Not known to contain foods listed in EU No 1169/2011.

CONEG – Coalition of Northeastern Governors (Heavy Metals)

In these products the sum of concentration of lead, mercury, cadmium and hexavalent chromium is less than 100 ppm by weight.

ASTM F963 Standard Consumer Safety for Toy Safety

These products are not formulated, or known to contain antimony, arsenic, chromium, selenium, or barium.

Pinnacle Polymers makes no warranty of merchantability and there is no warranty that materials shall be fit for any particular application. Users should make their own independent evaluation whether a Pinnacle product is suitable for a specific end-use. No one is authorized to assume any warranties on behalf of Pinnacle without written agreement from an authorized Pinnacle employee. Pinnacle limits its liability to either replacement of non-performing material, or payment not to exceed the cost of the polypropylene supplied plus transportation charges.

California Proposition 65

These products conform to Prop 65, including the Notice of Amendment of May 17th, 2018.

Animal Derivatives

Most products are not formulated, or known to contain animal or tallow based materials. However, to obtain information for a specific product grade, please contact Pinnacle.

Kosher

Products are not certified Kosher.

US FDA Drug Master File (DMF)

Information concerning these products is listed in DMF 17038. Contact Pinnacle for a DMF letter of authorization to be sent to the FDA.

Substances of Interest

Products are not formulated with, or known to contain, these substances; however, our products are not tested for these materials:

- 2,4-di-tert-butylphenol or 4-hydroxybenzene
- Acrylamide
- Aromatic Amines
- Asbestos
- ATP (Adenosine Triphosphate)
- Benzophenone
- Bisphenol A (CAS number: 80-05-7)
- Bisphenol F (CAS number 87139-40-0)
- Bisphenol S (CAS number: 80-09-1)
- Butylated Hydroxyanisole (BHA)
- Butylated Hydroxytoluene (BHT)
- Chlorofluorocarbons (CFC's) ozone depleting substances
- Cyanuric Acid
- Dioxins
- Elemental Boron or Phosphorus
- Epichlorohydrin
- Gluten
- GMO – Genetically Modified Organisms
- Latex, or natural rubber latex
- Latex related polymers
- Melamine
- Nitrosamines
- Nonylphenol
- Organo-tin Compounds
- Ozone Depleting Chemicals (ODCs)
- Perfluorooctanoic Acid (PFOA)
- Perfluorooctane Sulfonate (PFOS)

Pinnacle Polymers makes no warranty of merchantability and there is no warranty that materials shall be fit for any particular application. Users should make their own independent evaluation whether a Pinnacle product is suitable for a specific end-use. No one is authorized to assume any warranties on behalf of Pinnacle without written agreement from an authorized Pinnacle employee. Pinnacle limits its liability to either replacement of non-performing material, or payment not to exceed the cost of the polypropylene supplied plus transportation charges.

- Perfluorononanoic acid (PFNA)
- Phthalates in general, which includes:
 - Butyl benzyl phthalate (BBP) - (CAS# 85-68-7)
 - Di-isodecyl phthalate (DIDP) - (CAS# 26761-40-0 & 68515-49-1)
 - Di-isononyl phthalate (DINP) - (CAS# 28553-12-0 & 68515-48-0)
 - Di-n-butyl phthalate (DBP) - (CAS# 84-74-2)
 - Di-n-hexyl phthalate (DNHP) - (CAS# 84-75-3)
 - Di-n-octyl phthalate (DNOP) - (CAS# 117-84-0)
 - Di-(2-ethylhexyl) phthalate (DEHP) - (CAS# 117-81-7)
 - Diisobutyl phthalate (DIBP) - (CAS# 84-69-5)
- Polybrominated Biphenyls (PBBs)
- Polybrominated Diphenyl Ethers (PBDEs)
- Polybrominated Terphenyls (PBTs)
- Polychlorinated Biphenyls (PCBs)
- Polychlorinated Terphenyls (PCTs)
- Polyvinyl Chloride (PVC)
- Silicone
- Solvents: benzene, carbon tetrachloride, 1,2-dichloroethane, 1,1-dichloroethene, or 1,1,1-trichloroethane
- Vinyl Chloride
- BADGE, NOGE and BFDGE are not used in the manufacture of or the formulation of this product according to requirement of Regulation N.1895/2005

Health Canada

Most products have “no objection” letters issued from HPFB. Contact Pinnacle if you need to obtain this information.

RoHS

Products comply with the requirements of Directives 2002/95/EC, 2011/65/EU and 2015/863. Pinnacle products are not known to contain cadmium, lead, mercury, hexavalent chromium, polybrominated biphenyls, polybrominated diphenyl ethers, bis(2-ethylhexyl) phthalate (DEHP), benzyl butyl phthalate (BBP), dibutyl phthalate (DBP), or diisobutyl phthalate (DIBP).

European Legislation 1935/2004 Framework Directive EC as amended by 89/109/EEC

Products comply with relevant requirements.

2002/72/EC Plastic Materials and Articles intended to come into contact with food stuff amended by Commission Directive and all subsequent amendments including 2008/39/EC

Products comply with relevant requirements.

94/62/EC Packaging and Waste compliant to heavy metals not to exceed 100ppm

Products comply.

Pinnacle Polymers makes no warranty of merchantability and there is no warranty that materials shall be fit for any particular application. Users should make their own independent evaluation whether a Pinnacle product is suitable for a specific end-use. No one is authorized to assume any warranties on behalf of Pinnacle without written agreement from an authorized Pinnacle employee. Pinnacle limits its liability to either replacement of non-performing material, or payment not to exceed the cost of the polypropylene supplied plus transportation charges.

2005/1895/EC BADGE

Products comply with relevant requirements.

2008/282/EC Use of recycled plastic material

No recycled materials are used in our products.

10/2011/EC Monomers and Additives

Products comply with relevant requirements. Contact Pinnacle concerning the identification of any additives having SML requirements for finished articles.

2006/2023/EC Good Manufacturing Practices

Products comply with relevant requirements.

DSL (Domestic Substances List) and Chemical Batches

The above Pinnacle products are compliant with Canadian DSL and are not known to contain any of the substances listed in the CCMP 12 Batches of Chemicals.

REACH

We also confirm that the intentional composition of the above mentioned products do not contain any of the SVHC substances appearing in the REACH candidate list most recently updated by ECHA on June 27, 2018.

Medical Policy

Usage Restrictions: Pinnacle products shall *not* be used in connection with the following applications:

- The manufacture of any US FDA Class III Medical Device, Health Canada Class IV Medical Device or European Union Class III Medical Device.
- The manufacture of implanted medical or surgical devices.
- Life-sustaining medical applications.

Conflict Minerals

“Conflict Minerals” are a source of Tin, Tungsten, Tantalum and Gold (known as 3TGs). Polypropylene products marketed by Pinnacle Polymers contain no known sources of the 3TGs or their derivatives.

Sincerely,

James Goldthorp

Technical Director

Pinnacle Polymers makes no warranty of merchantability and there is no warranty that materials shall be fit for any particular application. Users should make their own independent evaluation whether a Pinnacle product is suitable for a specific end-use. No one is authorized to assume any warranties on behalf of Pinnacle without written agreement from an authorized Pinnacle employee.
